0 and are in this game, until two perfectly placed long shots by their opponents defensemen (less than a minute apart halfway through the third period) break this game open. For Vulcan Grip, their offense gets shut down unable to score when the first goal matters.

Garvin Chan who is one of the top players in this league but doesn't get recognized enough for his outstanding impact play, is the offense for his team, scoring 2-goals while adding an assist. His goal late in the second period changes the momentum and outcome for his team.

Steve Silveira stands out on defense while making a huge impact on his team's offense scoring a goal on a heads up play walking in from the point on a rocket of a shot, while also setting up two goals.

Naz, yes Naz scores his first-ever goal in the playoffs and his first goal in at least we think five years on a long distance laser from the left point that beats the goalie top corner. Naz has proven his doubters wrong all year with his play and he made good on his prediction that he would finally score a goal this season!

Goalie Steve Taddonio records his 4th shutout of the season (first in the playoffs) to continue his standout season in net
